Low Torque Type

BLG-4000BC2-LT

High Torque Type

BLG-7000BC2

*CE and CCC certification is under application.

Dear Valued Distributors,

Announcement of Launching New Model of BLG-BC2 Series and Accessory

We are pleased to announce you that HIOS will release low torque model “BLG-4000BC2-LT” and high torque model “BLG-7000BC2”.

We are also launching new I/O cable “BLG-BC2-3012” which has better durability than the current one by adopting lock type connector.

Main Characteristics of BLG-4000BC2-LT/BLG-7000BC2/BLG-BC2-3012

Covering wider torque range in both lower and higher levels

We are expanding torque range with having the same function of current BC2 series such as detecting errors, counter, and so on.

BLG-4000BC2-LT Specifications

- Torque Range: **0.03 to 0.2** N · m
- Free Run (HI/LOW): **1,000/690** rpm
- DC Power Supply: T-45BL/T-70BL

BLG-7000BC2 Specifications

- Torque Range: **0.7 to 2.8** N · m
- Free Run (HI/LOW): **1,200/800** rpm
- DC Power Supply: T-70BL

Durability and Expandability -Achieving Relief and Safety Anywhere Anytime-

We have adopted lock type connector cable to enhance durability*. Screw tightening data can be utilized to traceability and IoT system, as well as it is effective to new possibility.

* BLG-4000BC2-LT/BLG-7000BC2 only
