Commercial vehicle vacuum radiator filler

- Fast cooling fluid flow rate: approx. 80 l in approx. 20 minutes
- No cooling fluid is lost through the cooling system overflowing
- Separate control through the diagnostic testing device is no longer necessary
- Vacuum leakage test before refilling the cooling system
- Bubble-free filling of the cooling and heating circuit in trucks, buses, agricultural machinery and construction vehicles
- Can be used together with single adapters (table: see above) or universal adapters e.g. HAZET 4801-2/3

Twin Effect – More power in less time!

- Maximum efficiency due to the ground-breaking "HAZET Twin Turbo technology", enables high torques with compact design
- Innovative 8-blade air motor with 25% higher impact performance ensures maximum torque
- Long service life and high efficiency in industrial and automotive applications

- Significantly higher performance results in faster loosening of the screw connection during the screwing procedure and is thereby twice as efficient.

Advantage:
 saves time as the work procedure is completed faster, thereby consuming less air = cost savings!

Want even more power?

→ Then loosen your 1/2" screwed connection now with our 3/4" power innovation. How it works: Take, for example, our 3/4" impact wrench 9013M and connect our adapter 1003S-1 to the square.

At the other end, connect our new sockets s 17 or s 19 mm with new hexagon socket and away you go!

Impact socket (6-point)

- Operation via impact adapter e.g. HAZET 1003S-1 or nut-driver s 24 mm enables high force transmission
- Especially stiff wheel bolts can be loosened more easily via an optional 20 mm (3/4") impact wrench
- Especially suitable for vans and light trucks, e.g. FIAT Ducato, MERCEDES-BENZ Sprinter
- External hexagon on the socket wrench insert enables adaptation to 20 mm (3/4") drive
- Plastic casing protects rims against scratches

- Surface: phosphatized, oiled
- For operating wheel nuts on small trucks or vans, e.g. FIAT Ducato, PEUGEOT Jumper

 Made in Germany

1007S-7/4, 1003S-07

Impact adapter

- The enormous force of the 20 mm (3/4") drive results in high load on and increased wear of the 12.5 mm (1/2") output. The hexagon adaptation means the 12.5 mm (1/2") output is replaceable, making the adapter more versatile!
- With replaceable 12.5 mm (1/2") plug-in blades
- For impact operation
- With borehole for locking pin or safety spring and groove for o-ring
